

Guidelines for Reviewers of *Science Signaling* Journal Club articles

Journal Club articles are commentary pieces authored solely by graduate students or postdoctoral fellows. They typically highlight one or a few recently published papers in the general context of a given area of cell signaling research. Please evaluate the manuscript, using the following criteria.

Comprehensibility. The text should be well written, well organized, and intelligible to the general reader. Readers should be able to learn from the article what has been firmly established and what are new ideas or hypotheses.

Technical Merit. The facts and logic of the piece should justify the conclusions and accurately reflect the current state of the field.

Length. Journal Club articles should generally be less than 1500 words long and should have 15 or fewer references.

Conflict of Interest

If you cannot judge this resource impartially, please let us know immediately. If you have any financial or professional affiliations that may be perceived as a conflict of interest in reviewing the resource, please describe those affiliations on a separate page and return it with your review. Your comments will be considered in the context of this review and will be kept confidential.

Confidentiality

We expect reviewers to protect the confidentiality of the material presented. Please ensure that the enclosed Teaching Resource is not disseminated or exploited. If you find it necessary to discuss this submission with a colleague, please specify the particulars in a letter to the editor. Our review process is confidential; we do not disclose the identity of our reviewers or any confidential material they have provided to us.

Returning Your Review

We prefer to receive referee's comments through our electronic referee site. Each referee is sent by e-mail a unique log in and password that allows the referee to access the manuscript and submit comments. If you cannot locate this information, please write sciencesignalingeditors@aaas.org. We recommend that you type your review in a separate file with word processing software and paste the text into the review form online. If you have attachments, such as figures, or complex formatting, such as equations, that cannot be conveyed in text form, you may send these by email to scisignalreview@aaas.org by FAX to 202-408-9697. Please also include the manuscript ID number in the Subject line of your E-mail or on top of the faxed pages. The ID number is found in the filename of the PDF of the manuscript that you are reviewing.
