Fig. S1. LRP1 does not immunoprecipitate with Trk receptors.

fig. S1

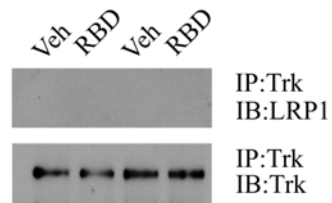

fig. S1. LRP1 does not immunoprecipitate with Trk receptors. PC12 cells were treated with the α_2 M RBD (100 nM) or with vehicle. Cell extracts were immunoprecipitated with a Trk receptor antibody and immunoblotted for the LRP1 β -chain (antibody 11H4) or Trk receptors.
